

DOCUMENT SHREDDING AND E-WASTE SERVICES

Waste such as CD's, computers and confidential documents are destroyed by our shredding machine. Our shredder is under 24-hour surveillance so that our clients are at ease knowing that all confidential documents have been destroyed.

GENERAL BENEFITS:

- It protects the environment. Recycling e-waste can keep a range of harmful materials out of the environment
- It supports non-renewable recycling

BUSINESS BENEFITS:

- It shows your eco-friendly credentials
- It shows your eco-friendly credentials
- Your reputation's safety net. Your business data, such as employee or client records, is priceless. If you don't properly dispose of your records, this sensitive information could fall into the wrong hands. With our paper shredding services, you can avoid a data breach.
- Spend less capital. It also costs money to provide an in-house shredding and e-waste program. Shredders, recycling containers, cleaning, services, and equipment repair/replacement expenses must all be paid for.
